## SECTION 7 - REGULATION

### Item 7.01 Regulation FD Disclosure

On December 5, 2019, the Minnesota Public Utilities Commission (MPUC) accepted as complete Minnesota Power's 2020 retail rate request filing and approved an interim rate increase of \$36.1 million to begin January 1, 2020. Minnesota Power filed a rate increase request of approximately \$66 million on November 1, 2019, which included an interim rate increase of approximately \$48 million. The MPUC decided that \$11.8 million of revenue from an expiring power market sales contract should be excluded from interim rates and decided in the final rate process.

Though we do not agree with the MPUC's finding in setting the amount of interim rates, we are confident in the regulatory process and are committed to working closely with our regulators and our other stakeholders to help ensure a positive outcome. Consistent with this view, Minnesota Power is awaiting receipt of a formal written order, and is also considering potential responses that may be available.

ALLETE remains confident in its ability to achieve its long-term objective of average annual earnings per share growth of 5 percent to 7 percent on a consolidated basis. ALLETE's 2020 guidance, which will be provided in mid-February as part of its fourth quarter 2019 earnings conference call, will reflect the implications of the interim rate decision to Minnesota Power as well as the outlooks of ALLETE's other business units.
