## SECTION 7 - REGULATION FD

### Item 7.01 Regulation FD Disclosure

ALLETE, Inc. (NYSE:ALE) today initiated its 2023 earnings guidance range of \$3.55 to \$3.85 per share on net income of \$200 million to \$220 million. This guidance range is comprised of our Regulated Operations segment earnings within a range of \$2.50 to \$2.70 per share, and ALLETE Clean Energy and Corporate and Other operations earnings within a range of \$1.05 to \$1.15 per share.

Key factors, expectations, considerations and assumptions impacting 2023 guidance are summarized below.

#### Regulated Operations

- Reflects the outcome of Minnesota Power's latest rate case based on determinations made by the Minnesota Public Utilities Commission at a hearing in January 2023.
- Industrial sales of approximately 6.5 million megawatt-hours (MWh) in 2023 reflect anticipated production from our taconite customers of approximately 33 million tons in 2023.
- Higher operating and maintenance expense of approximately 2 percent as compared to 2022.
- Higher depreciation and property tax expenses of approximately 7 percent as compared to 2022.
- Additional investments in the American Transmission Company LLC of approximately \$8 million.
- Guidance for 2023 assumes that we will achieve constructive outcomes in regulatory proceedings.

#### ALLETE Clean Energy

- Total wind generation of approximately 4.0 million MWh in 2023 with the expectation of normal wind resources (3.9 million MWh in 2022).
- Reflects the sale of the Red Barn project in 2023.
- Reflects mitigation of losses in the Southwest Power Pool market for the Oklahoma wind facilities.

#### Corporate and Other

- Reflects a full year of results from New Energy with net income of approximately \$16 million to \$17 million; no impacts due to purchase price accounting or transaction costs.
- Similar results at BNI Energy Inc. and Nobles 2 Power Partners, LLC.
- Slightly lower earnings at ALLETE Properties, LLC.
- Includes increased earnings from ALLETE's investments Minnesota solar projects.

Guidance reflects earnings per share dilution of approximately \$0.10 from higher average shares outstanding due to the secondary offering in 2022; minimal equity issuances in 2023.

We expect a consolidated effective income tax benefit approximately 5 percent in 2023.
